3.01 Property, plant and equipment:

3.01.01 Recognition and measurement:

Property, plant and equipment are stated at cost less accumulated depreciation. Cost includes expenditures that are directly attributable to the acquisition of the assets. The cost of self constructed/installed assets includes the cost of materials, direct labor and any other costs directly attributable to bringing the assets to the working condition for its intended use and the cost of dismantling and removing the items and restoring the site on which they are located. when parts of an item property, plant and equipment have different useful lives, they are accounted separate items (major components) of property, plant and equipment.

3.01.02 Subsequent costs:

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future benefit embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day to day servicing of property, plant and equipment are recognized in profit or loss and other comprehensive income as incurred.

3.01.03 Depreciation:

Depreciation is recognized in Statement of Profit or Loss and other Comprehensive Income on diminishing balance method over the estimated useful lives of Property, Plant and Equipment. Depreciation is charged on Property, Plant and Equipment from the usable date i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management and no depreciation is charged in the month of disposal.

No depreciation is charged on land and capital work-in-progress. Depreciation is charged on all other fixed assets on a diminishing balance method. Depreciation of an assets is charged by the rates depending on the nature and estimated useful life of assets are given below:

Non Current Assets	Rate of Depreciation
1. Building & Other Civil Construction	5%
2. Plant & Machinery	7%
3. Furniture & Fixtures	10%
4. Office Equipment	10%
5. Electric Installation	10%
6. Gas Line Installation	10%
7. Telephone Line Installation	10%
8. Water Line Installation	10%

10. Office Decoration	10%
11. Vehicle	20%
12. Motor Vehicle	20%
13. Factory Equipment	20%

Upon retirement of assets, the cost and related accumulated depreciation are eliminated from the accounts and resulting gain or loss is charged or credited to statement of profit or loss and other comprehensive income.

3.01.04 Non- Current asset held for Sales

Non-current assets that are highly probable to be recovered primarily through sale rather than through continuing use are classified as held for sale. Immediately before classification as held for sale the assets are remeasured in accordance with the companies accounting policies. There after, the assets are generally measured at the lower of their carrying amount and fair value less costs to sell. Impairment losses on initial classification as held for sale are recognized to revaluation reserve to the extent of revaluation surplus, in excess of revaluation surplus and subsequent gains or losses on remeasurement are recognized in the Statement of profit or loss. Gains are not recognized in excess of any cumulative impairment loss.

If criteria for an asset to be classified as held for sale are no longer met, then the asset or disposal company ceases to be held for sale.

In this case, the asset or disposal company should be valued at the lower of the carrying amount before the asset or disposal company was classified as held for sale (as adjusted for any subsequent depreciation, amortization, or revaluation) and its recoverable amount at the date of the decision not to sell.

3.02 Capital Work In Progress :

Property, plant and equipment under construction/acquisition is accounted for and measured at cost as capital work-in-progress until construction/acquisition is completed and it is ready for use.

The cost of capital work in progress comprises:

- 1) Purchase price includes import duties.
- 2) Any cost directly attributable to bringing the assets to be capable of operating in the manner intended by the Management.

The cost of capital working progress shall be recognized as property, plant and equipment when it is probable that the economic benefits associated with its intended use will follow to the entity as per paragraph 7 of IAS- 16 property, plant and equipment.

3.03 Impairment of Assets:

An impairment test is carried out by the Management at the end of each reporting year to ascertain whether there is any indication that an assets is impaired if any such indication exists, the impairment losses for an individual assets is measured and recognized in the financial statements in accordance with IAS-36 Impairment of asset.

3.04 Investment in Shares:

i) Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate thereof can be made. Provisions are reviewed at the end of each reporting period and adjusted to reflect the Current best estimate, If it is no longer probable that an outflow of resources embodying economic benefits are required to settle the obligation, the provisions are reversed.

ii) Contingent liability

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one of more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the statement of financial position of the Company. Moreover, contingencies arising from claims, litigations, assessments, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

iii) Contingent asset

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The company does not recognise contingent asset.

3.14 Finance income & finance costs:

3.14.01 Finance income

Finance income comprises interest income of funds invested and is recognised as it accrues in profit or loss using the effective interest method.

3.14.02 Finance costs

Finance costs comprise interest expense on borrowings and foreign exchange gain or loss. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

3.15 Non- Operating income:

Non- operating income includes interest income on delayed receipts from customers, gain/(loss) on sale of fixed assets and miscellaneous receipts. Other operating income is recognized as revenue income as and when realized.

3.16 Borrowing Cost:

Interest and other costs incurred by the company in connection with the borrowing of funds are recognized as expense in the period in which they are incurred, unless such borrowing cost progress that are capitalized as per IAS-23:

Other borrowing costs are recognized as an expense in the year in which its incurred as per paragraph 8 of IAS-23 Borrowing Cost.

3.17 Taxation:

3.17.01 Current Tax:

The Company are maintaining provision for taxation using rates enacted at the reporting date. The Company complies with the applicable tax laws in Bangladesh.

3.17.02 Deferred tax:

Deferred Tax liabilities are the amount of income taxes payable in future years in respect of taxable temporary differences. Deferred tax assets and liabilities are recognized for the future tax consequences of timing differences arising between the carrying value of assets, liabilities, income and expenditure and their respective tax bases. Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantially enacted on the balance sheet date. The impact on the account of changes in the deferred tax assets or liabilities has been recognized in the Statement of Profit or Loss and Other Comprehensive Income as per IAS-12.

3.18 Revenue from contract with customers:

The Company recognises as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle follow IFRS 15 five-step model as follows:

1. Identify the contract with a customer;
2. Identify the performance obligations in the contract;
3. Determine the transaction price;
4. Allocate the transaction price to the performance obligations in the contract; and
5. Recognise revenue when (or as) the entity satisfies a performance obligation;

Considering the five steps model, the Company recognises revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods are considered as transferred when (or as) the customer obtains control of that goods. Revenue from the sale of goods is measured at the fair value of consideration received or receivable, net of Value Added Tax (VAT). Gross turnover comprises local sales of Newsprint, M.G newsprint, Medium Paper and various Tissue paper and includes VAT paid to the Government of Bangladesh. Major portion of the sales revenue has been realized through banking channel except in a few cases.

The following table provides information about the nature and timing of the satisfaction of performance obligation in contracts with customers:

Types of Sales	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under IFRS 15
Local Sales	Customers obtain control of products when goods are shipped out at factory gate. Invoices raised as per management approves price list are generated at that point in time. Invoices are usually paid in cash as advance before getting delivery of the goods.	Revenue is recognized when (or as) the entity satisfies a performance obligation by transferring the promised good or service to a customer.

International Financial Reporting Standard IFRS-7 Financial Instruments: Disclosures - requires of disclosure of Information relating to both recognized and unrecognized financial instruments, their significance and performance, accounting policies, terms and conditions, net fair values and risk information - the Company's policies for controlling risk and exposures.

The management has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies are established to identify and analyze the risk faced by the company to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the company's activities. The company has exposure to the following risks from its use of financial instruments.

- a) Credit Risk
- b) Liquidity Risk
- c) Market Risk

37.01 a) Credit Risk:

Credit risk is the risk of a financial loss to the company if a customer or a counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivable from Trade Receivables. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. In monitoring credit risk, Trade Receivables are grouped according to their risk profiles, i.e. their legal status, financial condition ageing etc. Trade receivable are related to sale of News Print Paper, M.G News print, Medium Paper and Tissues paper.

Maximum exposure to credit risk of the company at reporting date are as follows:

	<u>148,174,185</u>	<u>189,326,070</u>

37.02 b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets. The Company's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Typically, the Company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, based on time line of payment of financial obligations and accordingly arrange for sufficient liquidity/fund to make the expected payments within due dates. Moreover, the Company has short term credit facilities with scheduled commercial banks to ensure payment of obligation in the event that there is insufficient cash to make the required payment. The requirement is determined in advance through cash flow projections and credit lines with banks are negotiated accordingly.
